A.M. Form 906.

AIR MINISTRY, METEOROLOGICAL OFFICE.

SOUTH KENSINGTON, LONDON, S.W. 7.

QUERY FORM.

On examination of the return of observations made at Ashe Leigh, Ross, Herefordshire 1925 the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.	REPLY.
The total of rainfall for 1925 which you were good enough to report to this Office and the number of days during the year with .01 inch or more are both rather low in comparison with values reported by your neighbours:- Ashe Leigh. / County Obsy. / Birch Leigh. 26.10 in. / 28.78 in. / 29.10 139 / 178 / 171 Each of the monthly totals seems rather low except those for August, September and December. Would you kindly say (1) if the receiver or the funnel of the gauge is leaking (2) if the gauge has become unduly sheltered by trees or shrubs, or (3) is it unduly exposed to the sweep of the wind. There are not many entries of the small amounts and this fact appears to affect the number of rain days. The matter is referred to in paragraph 11 on page 9 of the enclosed circular. 22nd June, 1926.	I cant account for the difference in my return to my neighbours, there is no leak in the funnel, the gauge is in the same spot as usual & no shrubs etc have grown up to shelter it: I often find considerable variation with my Sister-in-law who keeps a rain gauge in Ross only 2 miles away, but there is no regularity about it sometimes I measure more & sometimes less. W. S. R. Cox 23/6/26 accept total fall but reject raindays. HRB. 29.6.26

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

For use in M.O. 3.

1. The amendments indicated in red ink are adopted........................
2. Necessary corrections made in Monthly Return..........................
3. " " " " Weekly (Form 3110)..........................

For use in M.O. 2.

4. Necessary corrections noted in Forecast Division ....

Form A. 1. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1928

Kept at Ashe Leigh Ross

in the County of Herefordshire

by Major W S Rlox

Lat. Long.

Time of Observation 9 a m

Nearest Railway Station Ross

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground 1 ft. - in.

" " " " Sea Level 210 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to The Superintendent, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

(formerly B.R.O. Form A.1).

REGISTER OF RAINFALL

Kept at Rowden Abbey Bromyard
in the County of Hereford
by Henry Bailey

Lat. 52. 12 Long. 2. 30
Time of Observation 9 am
Nearest Railway Station Rowden Mill GWR
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground ft. 12 in.
" " " " Sea Level 450 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

AIR MINISTRY.

FORM 1090 METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1923.

Kept at Bromyard
in the County of Hereford
by T. V. Philpott M.A.

Lat. 52°11'N Long. 2°30'W
Time of Observation 9 a.m.
Nearest Railway Station Bromyard
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 1 ft. – in.
" " " " Sea Level 393 ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C.2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.

A.M. Form 906.

AIR MINISTRY, METEOROLOGICAL OFFICE.

South Kensington, London, S.W. 7.

QUERY FORM.

On examination of the return of observations made at Buckenhill, Bromyard. 1925. the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.	REPLY.
The number of days on which at least .01 inch falls in 1925 as reported by you seems low in comparison with neighbouring stations. Can you please say if the gauge is visited regularly every morning and the contents carefully measured? Sometimes an appreciable amount of water is deposited by dew or fog although rain may not have fallen.	Sometimes providing there has not been any rain or fog the guage is not visited - But this very seldom occurs
Would you kindly verify the entry of .54 on October 30th. Other stations had either nothing or a very small amount on that day.	The entry of ·54 on October 30th is entered on the card But unfortunately I was ill in bed at this time and the person who taken the register during my illness has left Buckenhill
22nd June, 1926.	J Rogers Buckenhill

Delete rain days. Adopt ·04 for Oct. 30th.

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

For use in M.O. 3.

1. The amendments indicated in red ink are adopted.........................
2. Necessary corrections made in Monthly Return.........................
3. „ „ „ Weekly (Form 3110).........................

For use in M.O. 2.

4. Necessary corrections noted in Forecast Division ....

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following. –

Records taken in Millimetres should be entered on Form 1091.

Lat. Long.
Time of Observation 9 a.m.
Nearest Railway Station Credenhill MR
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 1 ft. 0 in.
" " " " Sea Level 293 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to The Superintendent, British Rainfall Organization, 62, Camden Square, London, N.W. 1, or to The Superintendent, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

AIR MINISTRY.

FORM 1090. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1922.

Kept at Burghill Court

in the County of Hereford

by Miss E. D. Woodhouse F.R.Met.S.

Lat. ____ Long. ____

Time of Observation 9 a.m.

Nearest Railway Station Credenhill M.R.

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground 1 ft. in.

" " " " Sea Level 293 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should be entered on Form 1091.

A.M. Form 906.

AIR MINISTRY, METEOROLOGICAL OFFICE.

SOUTH KENSINGTON, LONDON, S.W. 7.

QUERY FORM.

On examination of the return of observations made at Credenhill, HEREFORD. 1925 the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.	REPLY.
The number of days on which at least .01 inch falls in 1925 as reported by you seems low in comparison with neighbouring stations. Can you please say ~~if~~ the gauge is visited regularly every morning and the contents carefully measured? Sometimes an appreciable amount of water is deposited by dew or fog although rain may not have fallen. We make the total of the entries for September 2.88 instead of 2.78. 22nd June, 1926.	I think my total of wet days is quite correct as I have always visited the rain gauge Last year the rainfall was very variable. it often rained within a mile of here and we were quite dry I am sorry I made a mistake in my total for Sept Frank E Whiting

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

For use in M.O. 3.

1. The amendments indicated in red ink are adopted..........
2. Necessary corrections made in Monthly Return..........
3. " " " " Weekly (Form 3110)..........

For use in M.O. 2.

4. Necessary corrections noted in Forecast Division..........

AIR MINISTRY.

FORM 1090. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1923.

Kept at Stretton Sugwas
in the County of Hereford
by Capt. S. H. Armitage.

Lat. 52° 3′N. Long. 2° 42′ 53″ W
Time of Observation 9 a.m.
Nearest Railway Station Credenhill
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 1 ft. 0 in.
" " " " Sea Level 226 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should be entered on Form 1091.

Reply to be addressed to:-
The Superintendent, British Rainfall Organization,
Meteorological Office, Air Ministry,
Kingsway, London, W.C.2.

Dear Madam,

In preparing for publication the rainfall return for last year which you have been so kind as to send us, a discrepancy has been observed between the total for the year and the sum of the monthly amounts. A careful comparison with other records leads us to believe that no error occurs in the months, and we therefore propose to adopt the correct total making it

17.75 inches.

If, by any chance, you do not concur in this we should be much obliged if you would kindly let us know.

Yours faithfully,

Carle Salter

Superintendent.

Miss Cresswell,
Hereford.

8 JAN 1924

Form 1090

AIR MINISTRY.

METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1923.

Kept at Lower House Fownhope
in the County of Herefordshire
by Frances Creswell (Miss)

Lat. ______ Long. ______
Time of Observation 10. a m
Nearest Railway Station Holme Lacey
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 2 ft. 6 in.
" " " " Sea Level ______ ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office. Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.

JAN

AIR MINISTRY.

FORM 1090 METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1923.

Kept at Goodrich Court Gardens, Ross

in the County of Hereford

by Thos Spencer

Lat. ______ Long. ______

Time of Observation 9 a.m.

Nearest Railway Station Kerne Bridge GWR

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground 1 ft. 6 in.

" " " " Sea Level about 200 ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.

A.M. Form 906.

AIR MINISTRY, METEOROLOGICAL OFFICE.

SOUTH KENSINGTON, LONDON, S.W. 7.

QUERY FORM.

On examination of the return of observations made at The Gardens, Goodrich Court, Ross, Herefordshire 1925. the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.	REPLY.
On the return of rainfall for 1925 which you were good enough to send, there are no entries for January 1st and ~~August~~ September 19th, while the entry of .67 on the 26th November is peculiar to your station; other stations having none on that day. Would you be good enough to refer to the original entries for those days. At other stations, January 1st and ~~August~~ September 19th were very wet days. 22nd June, 1926.	Jan 1 - 0 } 2 - 30 } correct Sept 19 (should read 1.71) Nov 26 - .67 is correct. W Spencer

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

For use in M.O. 3.

1. The amendments indicated in red ink are adopted..........
2. Necessary corrections made in Monthly Return..........
3. " " " " Weekly (Form 3110)..........

For use in M.O. 2.

4. Necessary corrections noted in Forecast Division..........

(192) Wt. 4402A—10416 2,000 6/24 T.S. 128

FORM 1090 **METEOROLOG** … **ANIZATION.**
(formerly B.R.O. Form A.1).

REGISTER OF RAINFALL IN 192…

JAN 192

Kept at Holmer Hall
in the County of Hereford
by Rev Preb M Hopton

Lat 52-6 Long 2·31
Time of Observation 9 am
Nearest Railway Station Hereford
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 1 ft. 3 in.
" " " " Sea Level 244 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

FORM 1090

AIR MINISTRY.

METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1924.

Kept at Brenton Court
in the County of Hereford
by H A Wadworth

Lat. 52 3 14 Long. 2 42 58
Time of Observation 9 Am
Nearest Railway Station Hereford
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 3 ft. in.
" " " " Sea Level 240 ft.

JAN 1925

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.

FORM 1090 METEOROLOGIC IZATION.

(formerly B.R.O. Form A.1).

REGISTER OF RAINFALL IN 1921.

Kept at Longworth Hall
in the County of Hereford
by Richard H. Barneby D.L. J.P.

Lat. Long.
Time of Observation 10 A.M
Nearest Railway Station Withington G.W.Ry
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 1 ft. in.
" " " " Sea Level 200 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

13 JAN 1925

AIR MINISTRY.

FORM 1091. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1924.

Kept at Belmont Abbey, Hereford.

in the County of Herefordshire.

by (Revnd) Andrew Baker.

Lat. 52° 5′N Long. 2° 45W

Time of Observation 9 G.T.

Nearest Railway Station Hereford.

Diameter of Funnel of Rain Gauge 8 2/10 ins

Height of top of Gauge above Ground 1 ft. in.

" " " " Sea Level 298 ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Inches should be entered on Form 1090.

FORM 1090. METEORO NIZATION.

REGISTER OF RAINFALL IN 192

Kept at Humber Rectory Leominster.

in the County of Hereford.

by Revd B. G. Way

Lat. 2·45. Long. 52·10.
Time of Observation 9 am. GMT.
Nearest Railway Station Leominster
Diameter of Funnel of Rain Gauge 5. in.
Height of top of Gauge above Ground 1 ft. 6 in.
" " " " Sea Level 450. ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should be entered on Form 1091.

FORM A. 1. METEOROLOGI NIZATION.

REGISTER OF RAINFALL IN 192~~0~~1

Kept at Gravel Hill Kington

in the County of Herefordshire

by Col G F Pearson

Lat 52°-12'-30" Long 3°-1'-20 W

Time of Observation 9 AM

Nearest Railway Station Kington G.W.R

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground — ft. 8 in.

" " " " Sea Level 535 ft. by Levelling

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

AIR MINISTRY.

FORM 1090 METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

(formerly B.R.O. Form A.1).

REGISTER OF RAINFALL IN 1923.

Kept at Gravel Hill Kington

in the County of Herefordshire

by Col. G. F. Pearson (deceased)

Lat. 52° 12' 30" N Long. 3' 20" W

Time of Observation 9 A.M.

Nearest Railway Station Kington G.W.R

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground — ft. 8 in.

" " " " Sea Level 535 ft. By Levelling

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

Gauge 5 in.

Ground 1 ft. 2 in.

Sea Level 510 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to The Superintendent, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

29 JAN 1922

FORM A. 1. METEOROLOGI NIZATION.

REGISTER OF RAINFALL IN 1921.

Kept at Wellington Heath Vicarage
in the County of Hereford
by Rev F. S. Scobe-Vaughan

Lat. Long.
Time of Observation 9 am
Nearest Railway Station Ledbury
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 1 ft. 2 in.
" " " " Sea Level 510 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

FORM A. 1. **METEOROLOG** … **ANIZATION.**

REGISTER OF RAINFALL IN 1922.

Kept at Rosedale House, Leysters

in the County of Hereford

by Edward S Chattock

Lat. ……… Long. ………

Time of Observation 9 am.

Nearest Railway Station Steens Bridge

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground — ft. 6 in.

" " " " Sea Level 600 ft. a/prov.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

JAN 1924

FORM 1090

AIR MINISTRY.
METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.
REGISTER OF RAINFALL IN 1923.

Kept at The Mount. Much Marcle
in the County of Hereford
by A. M. Charles

Lat. Long.
Time of Observation 9 a.m
Nearest Railway Station Dymock
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground ft. 9 in.
" " " " Sea Level 240 ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.

AIR MINISTRY.

FORM 1090

METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1924.

Kept at Ocle Court

in the County of Hereford

by George Cresswell

Lat. Long.

Time of Observation

Nearest Railway Station

Diameter of Funnel of Rain Gauge in.

Height of top of Gauge above Ground ft. in.

" " " " Sea Level ft.

as before given

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

JAN 1925

FORM A. 1. **METEOROLO ANIZATION.**

RE 1.

- 4 JAN 1922

Kept at Townsend House Dilwyn
in the County of Hereford
by Dr. Thos. Lambert Hall

Lat. Long.
Time of Observation 9 a.m.
Nearest Railway Station Pembridge
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground ft. 8 in.
" " " " Sea Level 290 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in *"Rules for Rainfall Observers,"* sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

AIR MINISTRY.

Form 1090

METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1923.

Kept at Dilwyn

in the County of Hereford

by Dr. T. L. Hall

Lat. Long.

Time of Observation 9. a. m.

Nearest Railway Station Pembridge

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground ft. 8 in.

" " " " Sea Level 290 ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.

FORM 1090. METEOROLO TION.

REGISTER OF RAINFALL IN 1923. H. D. Thornely.

21 MAY 1924

Kept at

in the County of Herefordshire

by Major General G. T. Glein CB CMG DSO

Lat. Long.

Time of Observation 9 a.m.

Nearest Railway Station Ross

Diameter of Funnel of Rain Gauge in.

Height of top of Gauge above Ground ft. in.

" " " " Sea Level ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.

A.M. Form 906.

AIR MINISTRY, METEOROLOGICAL OFFICE.

SOUTH KENSINGTON, LONDON, S.W. 7.

QUERY FORM.

On examination of the return of observations made at Perrystone Court, Ross-on-Wye. 1925

the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.	REPLY.
The number of days on which at least .01 inch falls in 1925 as reported by you seems low in comparison with neighbouring stations. Can you please say if the gauge is visited regularly every morning and the contents carefully measured? Sometimes an appreciable amount of water is deposited by dew or fog although rain may not have fallen. We make the total of the entries for September 3.82 instead of 2.82. 22nd June, 1926.	Sir, I beg to say we have not been in the habit of visiting the rain gauge when no rain has fallen, I am sorry it has not been, but in future we will, I did not think dew would amount to enough to register. I am also sorry about the total for September being added up wrong, and I beg to apologise for the mistake. Thanking you, I beg to remain Sir, Yours very obediently, H. D. Thornely I should be so pleased Sir to know whether the rainfall here is below the average for the district, our gauge is very exposed to wind.

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

For use in M.O. 3.

1. The amendments indicated in red ink are adopted..........
2. Necessary corrections made in Monthly Return..........
3. " " " " Weekly (Form 3110)..........

For use in M.O. 2.

4. Necessary corrections noted in Forecast Division..........

FORM 1090

AIR MINISTRY.

METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1925.

Kept at Ross, Birchlea

in the County of Herefordshire

by M. L. Southall

Lat. ______ Long. ______

Time of Observation ______

Nearest Railway Station ______

Diameter of Funnel of Rain Gauge ______ in.

Height of top of Gauge above Ground ______ ft. ______ in.

" " " " Sea Level ______ ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.

A.M. Form 906.

AIR MINISTRY, METEOROLOGICAL OFFICE.

SOUTH KENSINGTON, LONDON, S.W. 7.

QUERY FORM.

On examination of the return of observations made at Ross Council School 1925 the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.	REPLY.
A comparison of your rainfall return with those of surrounding stations suggests that a loss has occurred for December 19-21 probably due to snow as shown below. Ross Ashe Leigh ·64 " Council School — " Birchlea ·78 If you have no reason to the contrary we would recommend that a value of ·70 inch be adopted making the total for the month 3·15 and the year 28·77 inches We should be glad of your comments on this point J Glasspoole 26.7.26	Yes. certainly ·70 is correct nil is inaccurate

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

For use in M.O. 7.

1. The amendments indicated in red ink are adopted........................
2. Necessary corrections made in Monthly Return.................................
3. " " " " Weekly (Form 3110)........................

For use in M.O. 2.

4. Necessary corrections noted in Forecast Division ....

AIR MINISTRY.

FORM 1091. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1924.

8 JAN 1925

Kept at Ross-on-Wye
in the County of Herefordshire
by Frederick J. Parsons

Lat. 51°55'N Long. 2°35'W.
Time of Observation 7 AM
Nearest Railway Station Ross
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 12 ft. 0½ in.
" " " " Sea Level 223 ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Inches should be entered on Form 1090.

A.M. Form 906.

AIR MINISTRY, METEOROLOGICAL OFFICE.

SOUTH KENSINGTON, LONDON, S.W. 7.

QUERY FORM.

On examination of the return of observations made at Hill Court, Ross, Herefordshire 1925

the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.	REPLY.
The number of days on which at least .01 inch falls in 1925 as reported by you seems low in comparison with neighbouring stations. Can you please say if the gauge is visited regularly every morning and the contents carefully measured? Sometimes an appreciable amount of water is deposited by dew or fog although rain may not have fallen. 22nd June, 1926.	The gauge is visited every morning. by myself when at home and by the gardener when away. I will attend carefully to seeing if ~~[illegible]~~ there is any dew ~~[illegible]~~ or fog in the gauge. I am sorry I have not answered before, but am in Hospital as the result of an accident. G R Trafford. The Hospital Yeovil Somerset It would be very interesting to know if there is really on the difference shown from surrounding stations. My gauge is in a rather sheltered situation on an elevation in the Wye Valley which is surrounded by hills. G.R.T.

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

FORM 1090

AIR MINISTRY.

METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1923.

Kept at Weobley School

in the County of Hereford

by A J Dean

Lat. 52·9 N Long. 2·53 W

Time of Observation 9 a.m

Nearest Railway Station Moorhampton

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground 1 ft. — in.

" " " " Sea Level 320 ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.
